

Harsh Shandilya

UX/UI Designer

Available

As a designer, I highly value the ability to bring a client's vision to life, which is very rewarding. There is a huge amount of satisfaction I gain from seeing a piece of work from idea to design, especially when it appears in the user hands. My approach combines creativity with user-centered design principles to deliver solutions that not only look stunning but also elevate the user's journey. Let's collaborate and transform ideas into designs.

Professional Experience

July 2021 - Present

Wipro Limited | Project Engineer
